

At CIFIC Health, we recognize the strong links between good oral health and well-being. Having dental problems can negatively affect your physical and mental health in addition to reducing your overall quality of life. CIFIC Health Dental is committed to maintaining your oral health so that you can keep all of your own teeth and continue to eat the foods you enjoy.

CIFIC Health Dental sees pediatric and adult patients in our care suites on the first floor of our headquarters building on Main Street in the heart of Danbury. Our brand-new dental suite is equipped with state-of-the-art equipment to maximize your comfort and provide the highest quality of care. Proper brushing and flossing can go a long way to minimizing dental problems, but regular cleanings are necessary to prevent the buildup of plaque and tartar that leads to tooth decay and even loss of teeth. At your

cleanings, your oral healthcare team will screen for any serious health conditions that present in the mouth and teach you the most effective ways to maintain your oral health at home.

The Dentists and Hygienists of CIFIC Health Dental have decades of experience and provide care that is gentle, compassionate, and award winning. Public and private insurance is accepted and care is provided on a sliding fee scale for those without dental insurance.

CIFIC Health Dental Services

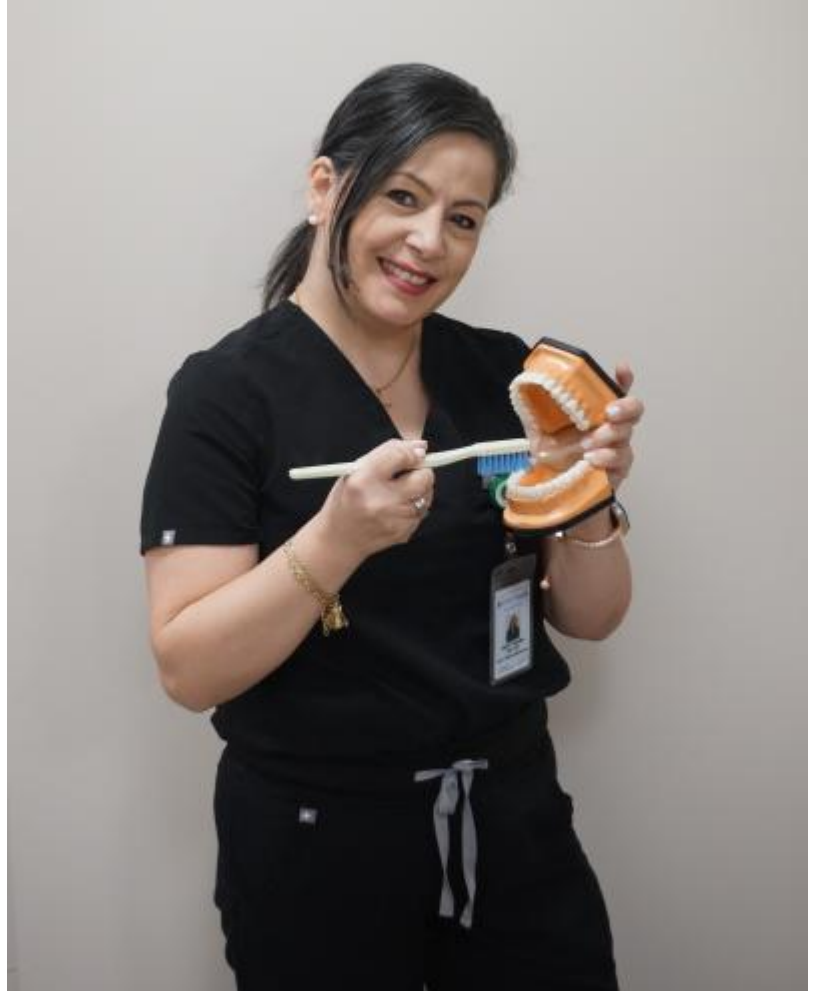

CIFC Health Dental offers a wide range of Diagnostic and Preventative services in addition to Restorative, Periodontal, Endodontic, Prosthodontic, and Surgical treatments, Including:

- Examinations and cleanings
- Fillings and Treatment of Cavities
- Extractions
- Root Canals
- Crowns
- Dentures

Are you overdue to see a dentist?

Do not wait any longer. As the condition of your teeth deteriorate, the time and discomfort that may be involved may grow. Or worse, conditions that do not get addressed can eventually lead to the loss of teeth. Our talented oral healthcare team will make you feel at ease as they screen you and provide you with the treatments that you need to regain control of your oral health.

**Thank you, Henry Schein Cares,
for your generous donation of
supplies!**
